

Silly Putty

1 Cup Elmer's glue

2 1/2 Cup liquid starch

Food coloring

In a bowl, mix glue and one cup of the starch together. Stir in a few drops of food coloring, if you wish. Cover bowl, and live it overnight. The following day slowly stir in with a spoon 1 to 1 1/2 cups of the starch until a big blob forms. Pour off extra starch. Store in an air tight container.
